A MILLION A YEAR. Lottery and Prize Schemes Used to Sell Alum and Ammonia Baking Powders.

A New York concern. manufacures of an ammonia baking powder boasts that its yearly profits are over a million dollars. While, perhaps, none of the makers of alum powders individually can show so large earnings yet their profits are enormous.

A business so profitable, will alvays attract to itself those whose greed will cause them to utterly disregard the effect their traffic may have upon the health or life of others.

Alum baking powders are introduced largely by gifts, prizes and lottery schemes. A piece of glassware or china, a child's wagon, sled a pewter spoon or some other article of attractive appearance, but of small intrinsic value or cost is given with each purchase or a number is attached to the can which entitles the customer to similarly numbered article or to a leave your order. prize of some kind. It is in some such way as this that the trade in alum and ammonia baking powders, \$2.50 ladies' shoe. which has now attained such giant proportions and their consumption by the spending several weeks at his old home public which has reached an extent

which is truly alarming. The highest authorities of all countries condemn the use of alum in bread without reserve. In America the most distinguished physicians, chemists and hygenists have declared that the traffic in alum baking powders should be suppressed by law. In Engand and France where the subject of pure food, and its effect upon the system, has been more fully considered and made the subject of extended experiments by the scientists, so serious a matter is the use of alum in bread or other food considered to be, that most dan mercantile company, spent several stringent laws have been enacted to prevent it. These laws are rigidly enforced, and the sale of alum baking powders would not be permitted for Drs. D. J. Brannen and P. G. Cor- an hour. Any one who attempted to nish, members of the U. S. Medical ex- make them for use in food, or attempted to use them for raising bread, biscuit or cake would suffer severe penalties.

The ill effects upon the system of food raised by alum baking powders their insidious character. It would be fess dangerous to the community were it fatal at once, for then such food would be avoided; but their deliterious action because imperceptible at first is no less certain.

The puckering effect which alum has when taken in the mouth is familiar to everyone. Physicians say this same effect is produced by it upon the delicate coats of the stomach and intes-

baking powder if she knew it. Such All are welcome. powders not only undermine the system, but it is pointed out that ammonia taken into the system in even infinithe complexion a sallow and blotched appearance.

It is safe to discard all baking powders sold with a prize or gift.

What a misnomer are the words 'Absolutely Pure," as applied to baking powders two of the largest selling brands, one made from alum, the other containing ammonia and both of these drugged baking powders have The regular monthly meeting of the Poor," as shown by official examina-

P. J. BRANNEN,

Why Dr. Price's Baking Powder is Superior to all others.

No great efforts are made by other manufacturers to procure and use pure materials.

It is true that one other company has the facilities, but its greed and cupidity induced it in an evil hour to use ammonia, in order to swell its profits. Hence the Price Baking Powder Company stands alone in its fight for a pure baking powder.

No other article of human food receives greater care in its production, or has attained higher perfection. Dr. Price's Cream is surely a perfect baking powder. Free from every taint of impurity. No other article used in the kitchen has so many steadfast friends among the housewives of America.
